

Eliran Trading Company

Eliran Trading Company has managed to attract the attention of many traders and merchants with more than years of experience in designing, producing and supplying a diverse range of sandals and slippers for women, men and children in order to turn into one of the top brands in the Middle East. The diversity of products in color, size, heel, material, weight and packaging resulted in attracting customers for Eliran products globally.

Eliran Company Products

● Toe Ring Sandals

Since this type of sandal is in great demand, it has turned into one of the most popular models among consumers. These sandals are mostly used in summer or for use on the beach.

● Heeled sandals

This product usually has heels with a height of ۳ to ۱۰ cm and their upper material is leather, lame, etc. This type of sandal is very popular in celebrations and periods due to its stylish and beautiful appearance and this is the reason why it is so popular among women.

● Barefoot Sandals

Different types of materials such as leather, plastic, and suede are used in these products in a diverse range of designs. Barefoot sandals are very comfortable; therefore, they are highly consumed.

● Strap sandal

This product has a strap attached to the sandal, which in addition to its beauty, also makes it easy to use. The straps are used in different types of flat, heels, etc.

- orthopedic sandal

A standard orthopedic sandal, in addition to good material, should be well ventilated to prevent the feet from sweating during long-term use. The insole should also be designed to cover the arch of the foot well to prevent foot muscle fatigue during exercise.

- Closed toe sandal

Closed toe sandals have better protection of the feet against various factors such as sunburn. It also supports shoe standards and is suitable for long walks.

● Leather sandals

This product comes with many features, among which we can mention its flexibility and high durability. Eliran leather sandals, in addition to being light and comfortable, have a great effect on maintaining health due to the use of high quality and standard leather.

● Bedroom slippers

Bedroom slippers are used for indoor environments and according to the different floors of the house, they should also have a slip-resistant and frost-resistant sole.

- Cloud slippers

This product is mostly used in humid environments such as bathrooms and toilets and has a great variety of colors. Cloud slippers are the lightest type of slippers on the market and have simple, casual models and toe rings.

- Cotton slippers

They are usually placed next to the bed service and are known as sleeping slippers

- orthopedic slippers

Despite their simple appearance, they are a good choice for keeping the legs and back healthy.

Packaging

Eliran Trading Company packages its products in stylish cardboard boxes after ensuring the quality of its products and thus sends them to its customers.
